Allowable Subject Matter

1. Claims 1-10 and 12-13 are allowed.
2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

On page 1, line 5, insert -- now U.S. Patent No. 6,681,031-- between "1999," and "the".

3. The following is an examiner's statement of reasons for allowance: Holliman et al. (U.S. 6,075,557) discloses an image tracking system for computer games which is configured to present a sequence of images, determine the position of a target image in a previous presented image in the sequence, determine the movement of the target image between the previously presented image and the subsequently presented image in the sequence as the determined position modified by the determined movement providing a rapid indication of the position and motion of the target (such as a user's head). Furthermore, Holliman et al. discloses objects, such as a user's eyes, are tracked based on color. However, the prior art lacks disclosing, teaching, or fairly suggesting in combination with Birchfield, providing a weighted average of color to compute the location of the user's head based on color alone. Using a weighted average of color to compute the location of the user's head based on color alone allows the instant invention to be computationally efficient and makes it robust to noise, occlusion, and rapid motion of the target/user.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Terminal Disclaimer

4. The terminal disclaimer filed on 7/28/05 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of copending application 09/798,594 has been reviewed and is accepted. The terminal disclaimer has been recorded.
